

BREEZE® Quick-Connect Jet Aero-Seal® Clamps

Originally patented for use in aircraft engines, BREEZE Aero-Seal clamps offer industrial-strength, vibration-proof, watertight sealing integrity – ideal for countless applications, including rail and transit, roofing, and multiple underground infrastructure projects. Designed to quickly engage – and then stay put until manually released, they offer a safe connection where it's most important.

Heavy-Duty Stainless Steel

- Designed to meet stringent vehicle & international quality standards

Installs Fast & Easy

- 4-piece Quadra-Lock construction
- Ideal for closed systems

A Safe Solution

- Once installed, connections can't snap open

BREEZE®

Jet Aero-Seal® Clamps

Heavy-duty stainless steel worm-drive hose clamp designed for quick assembly in a variety of applications.

9/16" (14.2mm) Band

5/16" (7.9 mm) Hex head screw

9/16" – 12-1/4" Diameter range

Competitive Advantages

- | Arcial perforations for added strength & durability
- | 4-piece Quadra-Lock construction for strength & stability

Small neck diameter allows screws to move up and away from band slots

Large bearing diameter forces screw threads down into band slots, keeps clamps engaged under tension
